

H.D. X-TRACTOR Carpet Extraction Shampoo

PRODUCT INFORMATION SHEET

DESCRIPTION:

H.D. X-TRACTOR is a low foaming liquid, specifically formulated for use in hard water areas through hot water extraction carpet cleaning equipment.

H.D. X-TRACTOR utilizes a unique surfactant system and chelating agents that neutralize the minerals in hard water, which allows superior removal and emulsification of oils, soils and shampoo residue commonly found in carpet.

H.D. X-TRACTOR also contains a biocide in the form of a quaternary ammonium compound to deodorize, eliminate wet carpet odours and destroy bacteria that may be found within the carpet leaving the carpet smelling fresh and clean.

FEATURES AND BENEFITS:

- Low foaming liquid for use through hot water extraction carpet cleaning equipment.
- Unique surfactant system allowing removal and emulsification of oils, soils and shampoo residues commonly found in carpet.
- Eliminates wet carpet odours and destroys bacteria found within the carpet leaving it smelling fresh and clean.

TECHNICAL INFORMATION:

Appearance	Clear pale straw liquid
Odour	Herbal
pH	13.0-14.0
Specific Gravity	1.041 ± 0.005
Percentage Volatiles	84.0 – 84.5%
Solubility in Water	Infinite

USE:

1. Dry vacuum carpet thoroughly before use.
2. Dilute **H.D. X-TRACTOR** 1 part to 10 parts water to spot clean where necessary or apply as a soil break for heavily compacted soils, eg. Bars, Dining Areas.

3. Dilution Rates:-

Light Soiling:	1 part H.D. X-TRACTOR to 120 parts water.
Medium Soiling:	1 part H.D. X-TRACTOR to 80 parts water.
Heavy Soiling:	1 part H.D. X-TRACTOR to 40 parts water.

- Note:** (a) Always test in a small, unobtrusive area to determine colour fastness.
(b) Never over wet carpet as this may cause shrinkage or jute stains.
(c) **H.D. X-TRACTOR** is not suitable for dry foam & shampoo units.

SAFETY: Causes severe skin burns and eye damage.

Keep out of reach of children. Read label before use. Do not breathe dust, fume, gas, mist, vapours or spray. Wash hands, face and all exposed skin thoroughly after handling. Avoid release to the environment. Wear protective clothing, gloves, eye/face protection and suitable respirator.
