

## INDUSTRIAL METHYLATED SPIRITS

### PRODUCT INFORMATION SHEET

#### DESCRIPTION:

**INDUSTRIAL METHYLATED SPIRITS** is used for specialized industrial applications only as a cleaning or thinning solvent.

**INDUSTRIAL METHYLATED SPIRITS** is widely used as a solvent. It is relatively safe, and can be used to dissolve many organic compounds which are insoluble in water.

**INDUSTRIAL METHYLATED SPIRITS** may be used for extraction and solvent applications. Main uses include chemical 1000 litre intermediates, resins, dyes, detergents, insecticides, fungicides, printing inks, surface coatings, fragrances and toiletry preparations. Widely used diluted as an antiseptic and for its sterilising properties in the healthcare industries.

#### TECHNICAL INFORMATION:

<b>Appearance</b>	Water white liquid
<b>Odour</b>	Alcohol
<b>pH</b>	N/A
<b>Specific Gravity</b>	0.795 ± 0.005

#### USE:

General Purpose Solvent. Used in various industries as required.  
Highly flammable. Harmful by inhalation and if swallowed.

**SAFETY:** Highly flammable liquid and vapour. Causes serious eye irritation.

Keep out of reach of children. Read label before use. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating, lighting and all other equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash hands, face and all exposed skin thoroughly after handling. Wear protective clothing, gloves, eye/face protection and suitable respirator.
