

JAL DET *Concentrated Detergent*

PRODUCT INFORMATION SHEET

DESCRIPTION:

Jal Det is a highly concentrated liquid. It is a compound with a synthetic wetting agent base incorporating advanced additives, penetrants and emulsifiers. Also Jal Det works in hard or soft water without losing any of its fast-acting cleaning power.

Jal Det was developed for the Food Industry for the use in manual dishwashing and glass washing. Jal Det was designed to provide maximum cleaning effectiveness over the wide range of Food Industry contaminations.

Jal Det is also an excellent general purpose detergent - to clean work benches, tables, floors and walls, and even cars effectively and quickly.

FEATURES AND BENEFITS:

- Economical - Very small amount of this concentrate is required in the wash-up water.
- Fast Cleaning Action- Saves time
- Streak Free- Rinses easily to produce sparkling clean results
- Multipurpose- May be used on various hard surfaces.
- Mild on hands
