

## PRODUCT INFORMATION SHEET

### DESCRIPTION:

**PERFECTION** Automatic Glass Washing Detergent is formulated especially for the removal of colour, stains, germs and soils which are the main cause of flat beer and soft drinks.

**PERFECTION** contains an antibacterial agent to kill germs, water conditioning agents which remove hard water ions from solution, boosted alkalinity to aid detergency and specially selected surfactants to eliminate spotting and streaking.

### FEATURES AND BENEFITS:

- Ideal for use through automatic metering equipment
- Can be used in hard and soft water areas
- Antibacterial
- Concentrated form – designed to be diluted before use

### TECHNICAL INFORMATION:

<b>Appearance</b>	Yellow Clear liquid
<b>Odour</b>	Characteristic
<b>pH</b>	12.5-13.5
<b>Specific Gravity</b>	1.090 +/- 0.01
<b>Solubility in Water</b>	soluble

### USE:

For Industrial use only.

Dilute 1 part **PERFECTION** to 5-6 parts water and pour into holding tank of Glass Washing Machine or simply insert feed hose into the solution.

In hard water areas dilute **PERFECTION** 1:2 with water then use as directed above.

**SAFETY:** Causes severe skin burns and eye damage.

Keep out of reach of children. Read label before use. Do not breathe dust, fume, gas, mist, vapours or spray. Wash hands, face and all exposed skin thoroughly after handling. Wear protective clothing, gloves, eye/face protection and suitable respirator.
