

PRODUCT INFORMATION SHEET

DESCRIPTION:

TRIO has been designed as a single solution to all cleaning and maintenance needs for floors.

At varying dilutions **TRIO** works as a daily cleaner, stripper and deep scrub product.

Floor professionals can now carry **TRIO**, the one product for all maintenance requirements.

TRIO is also safe on timber floors and can be used to remove existing acrylic polish or be used as a preparation product before applying timber finishes.

FEATURES AND BENEFITS:

- Stripper, Cleaner and Deep Scrub in one product
- Safe on timber floors, non-corrosive floor stripper
- Use as testing product to identify existence of polish on timber floors

TECHNICAL INFORMATION:

| | |
|----------------------------|------------------------|
| Appearance | Dark Blue Clear Liquid |
| Odour | Mountain Air |
| pH | 11.00 ± 0.5 |
| Specific Gravity | 1.001 ± 0.005 |
| Solubility in Water | Infinite |

USE:

Polish Indicator – Use a small amount undiluted in an inconspicuous area. Stand for 5-10min, lightly scrape area if floor becomes opaque or polish is removed; presence of polish is indicated and stripping required before urethane finish is applied.

Floor Stripping – 1:3 with water. Apply liberally with a cotton mop, do not allow to dry. Work in small controllable areas. Allow 10-15min contact, and then scrub with a Slow Speed Rotary Scrubber fitted with black stripping pads or surface preparation pad. Use a doodle bug with a black stripping pad in small confined areas. Remove slurry and repeat the procedure if necessary.

Deep Clean Scrub – 1:10 with water. Apply with mop and allow 5-10min contact, scrub and rinse with clean water before allowing to dry.

Heavy Cleaning – 1:40 with water for a mop and bucket

Light Cleaning – 1:80 with water for a mop and bucket

SAFETY: Causes serious eye irritation.

Keep out of reach of children. Read label before use. Wash hands, face and all exposed skin thoroughly after handling.
