DIRECTIONS FOR USE:

Toilet Bowls: Spray around the bowl and under the rim, allow 3 minutes contact. Agitate with toilet brush then flush.

Urinals and Wash Basins: Spray on and around the urinal or wash basin, swab with applicator or brush then flush. Repeat daily. For extremely dirty cases and stubborn stains, allow up to 10 minutes contact before flushing.

Stainless Steel: Spray on and use a non-scratch hand pad to assist build up removal, flush thoroughly after treatment.

Shower and Bath Soap Scum Removal: Spray on working from bottom to top, allow 5 minutes for full chemical action, then scrub with hand pad and rinse with clean water. Increase contact time depending on soiling.

Floor Cleaning: Spray on floor, mop over surface with Microfibre and rinse clean.

SAFETY:

Avoid contact with skin and eyes. Avoid breathing dust, fume, gas, mist, vapour or spray. Use only in well ventilated areas. Wash hands after use. Keep container closed when not in use.
