

## **SUPER CONC SOUR** *Concentrated Laundry Neutralizing Rinse Additive*

### **PRODUCT INFORMATION SHEET**

#### **DESCRIPTION:**

Super Conc Sour is part of the Super Conc range of laundry products designed to deliver unparalleled economy through performance and concentration. Super Conc Sour is designed to neutralise any residual alkalinity in fabric after the main wash is completed and should be dosed automatically to ensure excess is not added. Use through automatic metering equipment into industrial and institutional laundry washing machines. Use in position L4.

#### **FEATURES AND BENEFITS:**

- Neutralizing rinse additive for laundries.
- Super concentrated for greater economy
- Removes excess alkalinity from fabric
- Small pack size to reduce OH&S issues with lifting and storage of containers
- Excellent for use through automatic dosing equipment

#### **TECHNICAL INFORMATION:**

<b>Appearance</b>	Clear colourless mobile liquid
<b>Odour</b>	Nil
<b>pH</b>	0-1.0
<b>Specific Gravity</b>	1.04 ± 0.01
<b>Percentage Volatiles</b>	N/A
<b>Solubility in Water</b>	Completely miscible

#### **USE:**

For industrial use only.

Use through automatic metering equipment into industrial laundry washing machines. Dosing levels will be dependant on residual alkalinity levels in fabric which should be determined by analytical measurements. As a guide dosing at between 2ml and 5 ml per 16 kg of fabric will produce effective neutralization.

**SAFETY:** May be corrosive to metals. Causes severe skin burns and eye damage.

Keep out of reach of children. Read label before use. Keep only in original container. Do not breathe dust, fume, gas, mist, vapours or spray. Wash hands, face and all exposed skin thoroughly after handling. Wear protective clothing, gloves, eye/face protection and suitable respirator.
